A COMPLETE E-EXAMS SOLUTIONS

Pareeksha™ is an e-Exam tool that is one in its class, combines unique ONLINE and OFFLINE exam mechanism to conduct e-tests at both connected and disconnected environments.

WHY PAREEKSHA™?

Pareeksha™ is an e-Exam tool that is one in its class, combines unique ONLINE and OFFLINE exam mechanism to conduct e-tests at both connected and disconnected environments.

You and your examinee don't have to worry about connectivity or power failure between exams. Pareeksha™ will make sure you're your exams finishes successfully at any situation.

Helps examiner define question bank, question papers and examinees seamlessly and hassle free online.

• Fully Automated Web Based Examination Software
• Register Students Online
• Automated Test Creation / Randomized Questions
• Centralized Administrator Controls
• All the Features Are Customizable

Our solution will provide assistance in creating, conducting and evaluating examinations. Large organizations will be able to have a centralized database of questions, from which the tests will be prepared. Internet will be used as a media for disseminating and conducting tests, thus maintaining a uniform pattern for all the examines throughout the organization. The task of maintaining the record of scores and the tests for which a particular candidate has appeared will be done by the application software. The progress reports can be printed at any point of time by just providing the necessary details of a candidate.
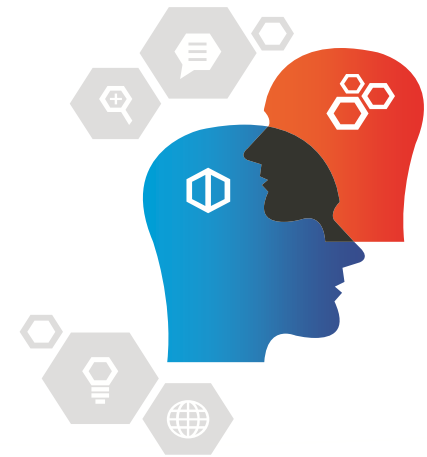

The solution can also be used by faculty members to create question papers. They can provide a question bank consisting of questions of varied difficulty levels. Numerous sets of distinct question papers can then be printed, consisting of all type of questions in equal proportion. The same can be put to use in corporate organizations and universities or colleges.

The examination can be conducted for remote candidates and evaluation of answers can be fully automated for Multiple Choice Questions (MCQ) questions can be evaluated manually or through automated system, depending on the nature of the questions and the requirements.

FEATURES

Pareeksha™ takes advantage of the advances made in IT to provide large-scale qualitative and quantitative improvements. The system envisaged, involves application software development, setting-up of hardware at a Central Examination Centre (CEC) and Designated Examination Centers (DEC).

Pareeksha™ is a web based application.
